

Likit Holder

Challenge Level : Low

Instructions for use

- 1 Hang your likit Holder from a strong beam well away from any walls (incorrect positioning will result in increased consumption).
- 2 The center of the likit Holder should be level with your horse's or pony's withers.
- 3 If you do not have a beam or some other area to hang the Likit Holder try running a piece of rope or bailing twine from top corner to opposite diagonal corner and use to suspend the Likit holder.

Top Tips

- 1 When introducing your horse to the Likit Holder, firstly let him lick the Likit from your hand, then hang the Likit Holder as directed and hold it steady, encourage him to lick again. Now stand back and watch as he plays!
- 2 Alternate the flavor of the Likit and change its position in the stable box to keep your horse interested.
- 3 The Likit Himalayan Rock Salt is a fun way of providing free access salt in the stable.

Key Points

- Use with 1 x Likit (1lb6.9oz/650g) refill – choose from five fabulous flavours.
- Likit Holder available in the following colours

Red

Blue
